

The Gaming Security Professionals of Canada's  
ANNUAL GENERAL MEETING  
MAY 31 - JUNE 2, 2022

Hosted by:

WELCOME TO THE GSPC’S 2022 ANNUAL GENERAL MEETING

On behalf of the Board of Directors, it is a pleasure to welcome and thank you for attending the GSPC 2022 Annual General Meeting. This year marks not only the 28 year of the GSPC, but also the first in person AGM since we met at Casino Windsor in Ontario in 2019. The past few years have been extremely hard on us all managing and dealing with the effects and impact of the coronavirus and we are excited that we can connect once again in person and bring you this amazing event.

Our association has experienced tremendous growth since it was formed in 1994, with over 100 members from every Canadian gaming jurisdiction. I am happy to see we have expanded our membership to include areas of focus outside Security and Surveillance Operations to include Compliance, Risk Management, Cyber Security, Governance and Investigations. We have also seen some great new partnerships with Corporate Members in areas such as Security and Surveillance Integration, Compliance consulting, Technical Solutions/Software for Casino Operations and Gaming Systems.

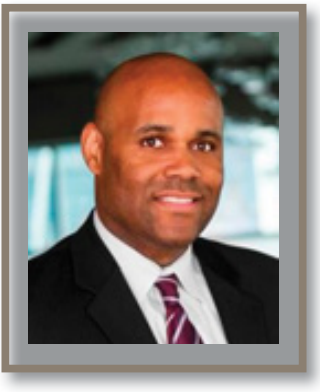

We extend our deep appreciation and thanks to our host, Casino du Lac Leamy, our title sponsor Loto Quebec, our gold sponsors BCLC and Genetec and our bronze sponsors Securmax and Honeywell as well as all of our corporate members. Their generous support has allowed us to bring you this exciting AGM program filled with education, networking opportunities and some great entertainment. A special “thank you” to the Organizing Committee for the many hours of hard work preparing for this event.

At the heart of the GSPC is its members and the experience and subject matter expertise you all bring to the association. The success of our association relies on active participation and engagement. We encourage everyone to make new contacts, reconnect with old friends and colleagues, and most importantly, be willing to share information, ask questions, offer new ideas and learn from one another.

**Kevin Sweeney**  
President, GSPC

**Kevin Sweeney**  
President

**Richard Paris**  
Vice President

**Bob McDonald**  
Vice President &

# Security, without the gamble

A unified approach to security means a single user interface for video surveillance, access control, and automatic license plate recognition (ALPR). Help your security team to focus on enhancing customer experience and protecting your business instead of managing and maintaining multiple, disconnected systems.
